

MDEM participated in the General Assembly of the Association of Shipbuilders of Ukraine «Ukrsudprom»

On September 2 MDEM participated in the general assembly of «Ukrsudprom», the Association of Shipbuilders of Ukraine, which took place at the company «Marko LTD».

The participants of the event made a tour of the company, which specialises in the production of complex equipment and maintenance for sea and river fleet vessels for domestic and foreign markets.

Viktor Lysytskiy, President of the Association "Ukrsudprom", made a report "Revival of shipbuilding by creating favorable conditions for regulation". Executive Director of the Association, Serhiy Lysenko, made a co-report on the topic "The state of shipbuilding in Ukraine in 2020 and prospects for 2021." "The presentation "Strategy for the development of the shipbuilding industry of Ukraine for the period up to 2030" took place, its main task is to create conditions for a full-fledged systemic revival of shipbuilding and the maritime industry in general.

Within the general assembly the Ukrainian Maritime Cluster and «Ukrsudprom» reached an agreement about efforts consolidation with the possible further establishment of a joint coordinating body.

Also, the ceremony of awarding the members of the Association took place, within MDEM received a certificate of membership in "Ukrsudprom". ■
