

Annelies Damen visited the Community Center in Galati

Several days ago, Annelies Damen visited the Community Center in Galati (Association for helping Ukrainians). As a founder of the organization "Help Ukrainians" and together with its representatives, she has supported our colleagues and their families since the first days of the war. Foundation Damen Support together with the organization "Help Ukrainians" have established the Community Center in Galati. There sport activities, art classes, and music lessons for children were organized. Their mothers and grandmothers have regular language lessons (English and Romanian), yoga, pilates and mental coaching.

This summer, Ukrainian children had an amazing Summer camp in Holland and vocation in Mangalia thanks to these organizations and the generous donations of Damen colleagues.

As Annelies Damen noted, "Today I had conversations with families and teenagers and it became very clear, this is Center is a Ukrainian home away from home. It is important to continue with this Center and therefore we need your support."

We can't stop thanking Annelies Damen, organization "Help Ukrainians" and Foundation Damen Support representatives, and all Damen colleagues who care for our families, support all of us during this crisis time, and give us a sense of care and stability. Dear colleagues, your kindness and sincerity help us to overcome this difficult time for Ukrainians. May all your kindness come back to you with the best returns! 🏠
