

Ship repairs in Middle East

DUBAI - FUJAIRAH - SHARJAH

ALBWARDY DAMEN

**Safety and quality
at the right price”**

Welcome

Welcome to Albwardy Damen, a joint venture between Albwardy Investment, United Arab Emirates and the Damen Shipyards Group, the Netherlands - both family-owned companies with a long history. We provide shipbuilding and ship repair services to the marine and oil & gas industries in the Middle East.

We have a total workforce of around 1700 people of 26 different nationalities in our three UAE locations: Dubai, Sharjah and Fujairah. Our people are our biggest asset, and we are proud that 15% of our staff has been with us for 25+ years. With all the key competences in-house, including an extensive engineering division, we repair and build vessels to the highest technical and environmental standards. We are certified by LRQA for ISO 9001, ISO 14001 and ISO 45001.

Our largest operation is our Sharjah Yard, where we have all the major trades in-house, including an extensive and experienced Engineering Department. With a 120x26 metre shiplift, ample docking space and 1000 metres of quayside with a water depth of up to 7 metres, we are serving all

operators in the region. Our in-house diving team carries out underwater maintenance and inspections in the UAE and Oman ports and anchorages. We represent a number of global marine manufacturers with aftersales services.

Drydockings are also offered from Dubai and Fujairah. Our operation in Dubai offers drydocking repairs in Al Jadaf and Dubai Maritime City where we can dock vessels up to 130 x 33 metres in size.

I look forward to welcoming you to one of our locations here in the UAE.

Lars Seistrup
Managing Director

A one stop shop: Everything in-house.

Ship repairs are offered from our three locations in Sharjah, Dubai and Fujairah. Our docking capacity is up to 130m LOA, and we offer layby berths up to VLCC size.

› Safety is our highest priority

We are committed to continuously maintaining a safe and healthy workplace in all our operations. We recognise that we work in a dynamic industry involving potentially hazardous equipment and operations.

› 1700 people ready 24/7

We have a dedicated team of 1700 people in three UAE locations, who are ready to support our customers 24/7.

› One-stop-shop

We have a large team of in-house specialists who can handle requests of any level of complexity. We are engineering, building and repairing steel or aluminum vessels. We have a large experience in retrofitting and conversions.

› All major trades in-house

We have all major trades in-house, mainly carried out by our own staff. We have a multi-disciplinary Engineering and Production support team in-house.

› In-House Specialists

ICCP systems

Building and repairing ships since 1978

DOCKINGS UPTO 130M LOA AND LAYBY BIRTHS UPTO VLCC SIZE

LOA upto 145 metres and docking upto 120 metres

LOA upto 145 metres and docking upto 130 metres

LOA upto VLCC size – Inside Arabian Gulf

LOA upto VLCC size – Outside Strait of Hormuz

Albwardy Damen Sharjah, UAE

Albwardy Damen Dubai, UAE

Port Khalid, Sharjah, UAE

Port of Khorfakkan, UAE

We operate from three UAE locations: Dubai, Sharjah and Fujairah. Dockings up to 130m LOA. Afloat repairs of any size in all UAE and Oman ports and anchorages or underway, anywhere in the world.

Our largest operation, Albwardy Damen - Sharjah is conveniently located in the Sharjah Hamriyah Free Zone with unrestricted access to the sea. Like Dubai, this yard is ideally positioned for easy access to all seven Emirates, as well as providing connections to neighbouring Gulf States.

Drydocking facilities

- › Sharjah Synchro Lift: 120 x 26.5m
- › Dubai Synchro Lift 130 x 33m
- › Fujairah Travel lift 35m x 7m

CONVERSIONS & RETROFITS

We have a great deal of experience with large and small conversion jobs. The open sea access and the spacious and efficient layout of the Albwardy Damen facility is particularly well-suited to mobilisation and demobilisation of equipment and for carrying out complex conversions.

- › Hybridisation retrofits
- › Ballast water treatment upgrades
- › Conversions and mobilisations
- › Yacht support conversions
- › Saudi Aramco and ADNOC upgrades
- › Double hull tanker conversions

NEWBUILDING

Our newbuilding department is based in our Sharjah yard. Here we have built over 90 vessels since 2014.

- › Damen and non-Damen designs
- › Construction in steel and aluminium up to 120m LOA
- › Uncompromising Safety and Quality Standards
- › Full warranty and aftersales support

ENGINEERING SOLUTIONS

Albwardy Damen has a multi-disciplinary Engineering and Production support team comprising qualified and experienced naval architects, engineers and draughtsmen, capable of providing end-to-end engineering services whether you have a newbuilding, conversion or ship repair project.

AFLOAT, VOYAGE & PORT REPAIRS

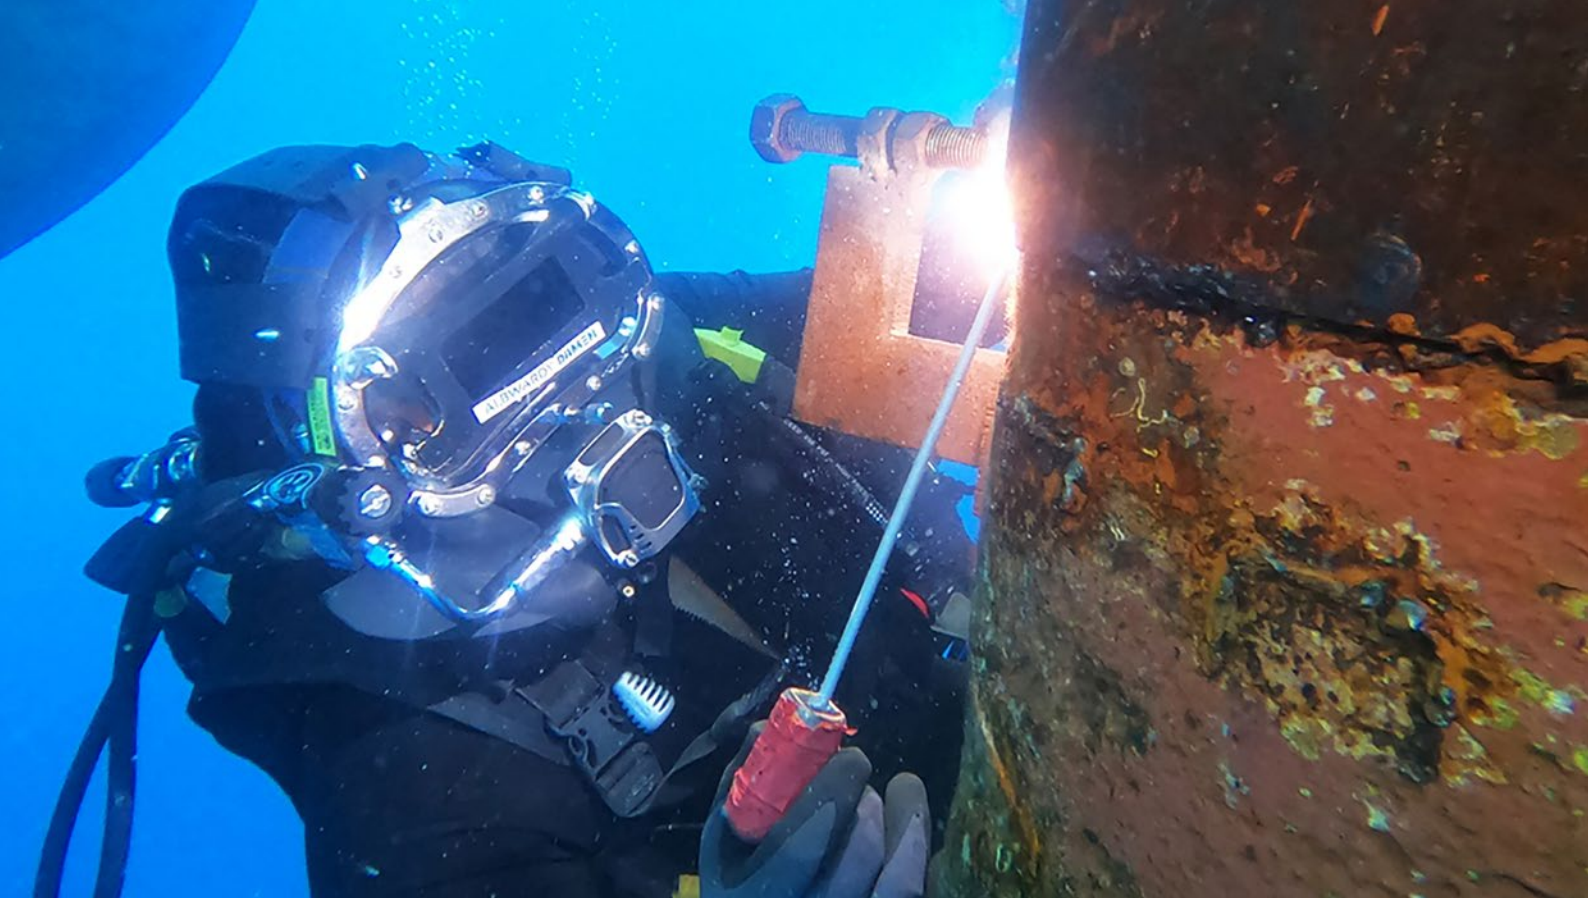

With our unique combination of in-house trades, our facilities and our own talented staff, we can provide you with any repair assistance and support you need in any location. Our teams are ready to support you either afloat, in port or during a voyage.

- › Steel, Piping and mechanical repairs
- › Pre-docking afloat repairs
- › Hydraulics repairs
- › Automation repairs
- › GRE/GRP piping
- › 2-stroke and 4-stroke engine overhauls
- › Ballast water retrofits on location
- › Electrical repairs including high voltage systems
- › Cargo crane repairs
- › Thermographic and vibration analysis
- › Electric motor rewinding
- › Mooring and deck equipment repairs
- › Laser alignment and 3D scanning

EMERGENCY REPAIR

With our large in-house capacity and expertise we can support you with any repair assistance and support in any emergency. We are able to make a repair plan at very short notice, to get your vessel back in operation as soon as possible.

- › Fire damage repairs
- › Collision & grounding
- › Cell guide repairs and stevedoring damages
- › Anchor recovery
- › Electrical repairs including high voltage systems
- › Complex crane and deck machinery repairs
- › Underwater services and repairs
- › Class certified underwater welding
- › Bow thruster repairs
- › Anchor and chain recovery
- › Complex 2 and 4-stroke engine repairs

Underwater jobs carried out in the UAE, Oman and in Africa

Albwardy Damen Diving has been serving the maritime industry since 1995. Our diving hub is located in Fujairah Port, however, our diving teams serve all UAE ports and anchorages. In addition to the UAE, we also send teams to Africa and can carry out our full range of diving services in the Sultanate of Oman.

We have invested in the very latest diving and underwater maintenance equipment. This ensures the highest standards of safety and workmanship. The division currently has a team of more than 25 certified commercial divers. Ongoing training has led to six divers now being HSE1 qualified and two are trained for underwater welding. We also operate two customised diving boats to support our underwater teams.

Our locations

Our diving department is based in Fujairah. However, our services are offered in all UAE ports and anchorages as well as in Oman.

Our services include:

- › Ship anchor and chain recovery
- › CCTV inspections
- › IWS and UWILD surveys
- › Pre-docking inspections
- › Underwater hull cleaning
- › Underwater repairs
- › Propeller polishing
- › Class certified underwater welding

Service Standards

The division is committed to providing the best possible service, while at the same time offering outstanding value for money, in the safest and most environmentally friendly way possible.

Our Approval authorities

We are approved by all the major classification societies and local government bodies. This is demonstrated by Albwardy Damen's ISO 9001, ISO 14001 and ISO 45001 accreditations by Lloyds Register.
