FAST FERRY 4212

Full specification

FAST FERRY 4212

About this vessel type

Damen's Fast Ferries are known for their quality, reliability and efficiency. We understand that ferries are often the only way of keeping connected, and that they function as genuine lifelines for islands and remote areas. Our designs focus on passenger comfort, high operability and predictable maintenance.

The Damen Fast Ferry 4212 is a high-speed aluminium catamaran, designed for coastal operations aiming at high passenger comfort, low fuel consumption and low maintenance costs.

DAMEN FAST FERRY 4212

Unique features

» High passenger comfort

A lot of attention has been paid to the spaces and seats on board, to ensure the passenger's comfort is at a high level. The journey should not only be safe but also a pleasure.

» We never compromise on safety

Damen never compromises on safety. Our Fast Ferries embody the highest safety standards. And although designed for speed and efficiency, they still have excellent seakeeping abilities.

» Low fuel consumption

The design of the vessel in combination with the installed machinery was carefully chosen to keep fuel consumption low, ensuring a positive effect on operational costs.
